

REMARKS

Each of the 35 USC 112 issues raised in the December 13, 2005 Office Action will be addressed in the order they appear.

The Examiner has observed that it is not clear whether each of the scoops have a mouth or if all of the scoops have only one mouth. Claim 1 has been amended to attempt to claim each of the scoops having their own mouth. This amendment is believed to clarify the scope of the claim as originally filed without limiting its scope.

Claim 2 was identified as having a similar problem with respect to the tail or tails. Claim 2 has been amended to provide a tail for each of the scoops.

Claim 4 was identified as having a verb problem. "Connects" should have been "connected". The enclosed amendment addresses this typographical error.

Claim 11 as originally filed has a grammar problem. Claim 11 has been amended to address this issue.

Allowable Subject Matter

The Applicant appreciates the Examiner indicating that claims 1-18 are allowable if rewritten to address the 35 USC 112 issues. The Applicant is hopeful that the enclosed amendment adequately addresses each the issues identified by the Examiner..

Respectfully submitted,

Date: December 19th, 2005
